

VOLLMANN OLAMIDE AKARAKIRI

DRAFTSMAN · AUTOCAD & REVIT TECHNICAL DESIGNER

+234 816 367 5439 | vollmannakarakiri0@gmail.com | Lagos, Nigeria | linkedin.com/in/vollmannakarakiri

PROFESSIONAL SUMMARY

Detail-oriented Draftsman and Technical Designer preparing accurate technical drawings, working drawings, detailing packages and construction documentation for residential, commercial and mixed-use building projects across Nigeria. Core capability in AutoCAD for 2D technical drawing, site plans and construction detailing, with working Revit, Dynamo and Navisworks capability for BIM modelling and coordinated documentation. Strong site background — experienced in conducting site visits, taking measurements and interpreting architectural and structural drawings to support construction execution. BSc in Building Technology; currently pursuing an MSc in Construction Engineering Management.

CORE COMPETENCIES

Technical & Working Drawings | Construction Documentation | Detailing Packages | Interpretation of Architectural & Structural Drawings | Site Measurements & Site Visits | Building Codes & Regulatory Compliance | Design Coordination | Quantity & Cost Estimation | Quality Control | Health & Safety (HSE)

TECHNICAL & SOFTWARE SKILLS

AutoCAD	Core — 2D technical drawings, site plans, detailed construction and working drawings, and detailing packages
Autodesk Revit	Working — BIM models and construction documentation across office, residential and interior work
Dynamo / Navisworks	Working — repeatable documentation tasks, model navigation and structured coordination review
Twinmotion	Working — architectural visualisation and design-review imagery
MS Project / Excel	Drawing registers, schedules, quantity take-offs and progress reporting

PROFESSIONAL EXPERIENCE

Project Manager / Engineering Lead — Nu-Avenue Company Resources, Lagos	Aug 2021 – Feb 2026
- Prepared and reviewed technical drawings, working drawings and construction documentation for projects exceeding ₦350 million in cumulative value, working from architectural and engineering specifications. - Produced BIM models and coordinated documentation sets in Revit and AutoCAD across office, residential and interior work. - Conducted site visits and measurements across 20+ concurrent project sites to verify dimensions, resolve drawing discrepancies and support construction execution. - Coordinated with architects, consultants, structural engineers and contractors to ensure drawings met quality standards, building regulations and project timelines. - Prevented costly rework by identifying drawing errors and specification conflicts early — contributing to over ₦10 million in project savings.	
Site Engineer / Assistant Technical Designer — Nature's Beauty Construction	Jun 2020 – Aug 2021
- Produced detailing packages for residential properties, including construction details, setting-out drawings and material specifications. - Supervised site-development and landscape works, ensuring construction matched issued drawings and design standards.	

- Provided technical guidance on structural repairs and construction methods; trained 5+ staff in drawing interpretation and site supervision.
- Site Supervisor — Lego Construction Company** Dec 2019 – Apr 2020
- Prepared project plans, contract documents, drawings and schedules; facilitated interdisciplinary coordination meetings between design and site teams.
- Architecture & Planning Intern — Danzinger Nigeria Ltd** Aug 2017 – Dec 2017
- Assisted drafting, BIM updates and construction documentation on consulting engagements.

EDUCATION

- MSc, Construction Engineering Management** — University of East London Sep 2024 – Present
- BSc, Building Technology** — Federal University of Technology, Akure 2014 – 2019
