

VOLLMANN OLAMIDE AKARAKIRI

CONSTRUCTION PROJECT MANAGER · TECHNICAL & BIM LEAD

+234 816 367 5439 | vollmannakarakiri0@gmail.com | Lagos, Nigeria | linkedin.com/in/vollmannakarakiri

PROFESSIONAL SUMMARY

Results-driven Construction Project Manager and BIM Specialist with 7+ years of progressive technical and site leadership in residential, commercial and mixed-use real estate construction across Nigeria. As Engineering Lead, directed technical delivery across 20+ concurrent project sites and contributed to projects exceeding ₦350 million in cumulative value, generating over ₦10 million in savings through cost control, technical oversight and error prevention. Combines hands-on site engineering with advanced BIM capability in Revit, Dynamo, Navisworks and AutoCAD to lead technical teams from design coordination through construction documentation and handover. Currently pursuing an MSc in Construction Engineering Management (University of East London).

CORE COMPETENCIES

Technical Leadership & Team Coordination | Construction Documentation & Drawing Control | Design & Site Coordination | Budgeting & Cost Forecasting | Procurement & Contract Administration | Building Codes & Regulatory Compliance | Quality Control & Clash Detection | Health & Safety (HSE) | Stakeholder & Client Reporting

TECHNICAL & SOFTWARE SKILLS

Autodesk Revit	Advanced — BIM modelling, coordination and construction documentation for 30+ projects
AutoCAD	Expert — technical drawings, site plans and full detailing packages
Dynamo / Navisworks	Parametric automation, multi-discipline coordination and clash detection
Twinmotion	Expert — real-time architectural visualisation and walkthroughs
MS Project / Excel	Programme scheduling, budgeting, cost forecasting and progress reporting

PROFESSIONAL EXPERIENCE

Project Manager / Engineering Lead — Nu-Avenue Company Resources, Lagos	Aug 2021 – Feb 2026
- Led technical delivery across 20+ concurrent project sites in multiple Nigerian states, from planning through completion, contributing to projects exceeding ₦350 million in cumulative value. - Directed the technical and BIM function — coordinating architects, consultants, structural engineers, suppliers and contractors to ensure quality standards, safety compliance and on-time delivery. - Produced and oversaw BIM models and construction documentation in Revit, Dynamo and AutoCAD for 30+ office, 10+ residential and 10+ interior projects. - Generated over ₦10 million in savings through technical oversight, cost control, vendor coordination and early error prevention. - Managed procurement, budgeting and project planning end-to-end, reporting project and operational spend to management.	
Site Engineer / Assistant Technical Designer — Nature's Beauty Construction	Jun 2020 – Aug 2021
- Planned and supervised site-development and landscape projects — contributing to 10+ residential properties — ensuring compliance with design and construction standards. - Provided technical guidance on structural repairs and construction methods, and produced full detailing packages. - Trained and onboarded 5+ employees in site supervision and technical drawing interpretation.	

Site Supervisor — Lego Construction Company

Dec 2019 – Apr 2020

- Developed project plans, contract documents, schedules and budgets; facilitated interdisciplinary coordination meetings and client engagement.

Architecture & Planning Intern — Danzinger Nigeria Ltd

Aug 2017 – Dec 2017

- Supported project planning and coordination, assisting management of consulting activities exceeding ₦10 million; assisted drafting, BIM updates and construction documentation.

EDUCATION

MSc, Construction Engineering Management — University of East London

Sep 2024 – Present

BSc, Building Technology — Federal University of Technology, Akure

2014 – 2019
