

VOLLMANN OLAMIDE AKARAKIRI

CONSTRUCTION PROJECT MANAGER · SITE ENGINEER

+234 816 367 5439 | vollmannakarakiri0@gmail.com | Lagos, Nigeria | linkedin.com/in/vollmann-akarakiri-49127b1a0

PROFESSIONAL SUMMARY

Results-driven Construction Project Manager and Site Engineer with 7+ years delivering residential, commercial and infrastructure projects from planning through execution and handover across multiple Nigerian states. Experienced across the full delivery cycle — foundations, structural works, drainage and civil infrastructure, roofing, finishes and commercial fit-out — coordinating subcontractors, procurement, programme and quality control on site. Has contributed to projects exceeding ₦350 million in cumulative value and generated over ₦10 million in savings through cost control, procurement oversight and early error prevention. Backed by advanced BIM capability (Revit, Navisworks, AutoCAD) that bridges digital model and physical delivery. BSc Building Technology; MSc Construction Engineering Management in progress.

CORE COMPETENCIES

Construction Project Management | Site Engineering & Supervision | Planning & Programme Scheduling | Budgeting & Cost Forecasting | Procurement & Contract Administration | Subcontractor Management | Structural & Civil Works | Commercial Fit-Out Delivery | MEP Coordination | Building Codes & Regulatory Compliance | Quality Control & Snagging | Health & Safety (HSE) | Risk Management | Stakeholder & Client Reporting

SELECTED PROJECT EXPERIENCE

6-Flat Residential Block Ikotun, Lagos	Six-flat development delivered from foundation to completion — structural frame, column casting, suspended slabs and superstructure.
6-Bedroom Duplex Ado, Ekiti State	Two-phase delivery: structural works (foundation, columns, slabs, roofing) followed by the complete interior finishes package.
Oluku Ultra Modern Market Benin City, Edo State	Two-stage market infrastructure scheme — Stage 1 reinforced drainage system design and construction; Stage 2 setting-out, survey and shop unit structures.
The Body Shop Outlets Ikeja City Mall & Circle Mall Lekki	Retail fit-out of two outlets for an international brand entering the Nigerian market — bare shell to trading floor, to the client's global brand standards.
Fina Trust Bank Sales Outlet Orile, Lagos	Banking outlet fit-out — partitions, counters, flooring, ceilings and MEP rough-in to banking-sector specification.
Falana Residence Landscape Akure, Ondo State	Residential site development on a sloped plot — stone-faced retaining walls, grading and interlocking paved driveway.

PROFESSIONAL EXPERIENCE

Project Manager / Engineering Lead — Nu-Avenue Company Resources, Lagos	Aug 2021 – Feb 2026
- Directed construction delivery across multiple concurrent project sites in several Nigerian states, contributing to projects exceeding ₦350 million in cumulative value. - Generated over ₦10 million in savings through cost control, procurement oversight, vendor coordination and prevention of construction errors before they reached site. - Coordinated architects, consultants, structural engineers, suppliers and subcontractors to ensure quality, safety and on-time delivery across residential builds, commercial fit-outs and civil infrastructure. - Managed planning and scheduling, budgeting and cost forecasting, procurement and contract administration, and progress reporting to clients and stakeholders. - Produced coordinated BIM models and construction documentation for 30+ office, 10+ residential and 10+ interior projects, using clash detection to reduce on-site rework. - Enforced site health & safety standards and quality control through to snagging and handover.	

Site Engineer / Assistant Technical Designer — Nature's Beauty Construction

Jun 2020 – Aug 2021

- Planned and supervised site-development and landscape construction projects across multiple Nigerian states, ensuring works matched issued drawings and design standards.
- Produced full detailing packages for 10+ residential properties, including construction details, setting-out drawings and material specifications.
- Provided technical guidance on structural repairs and construction methods; trained 5+ staff in drawing interpretation and site supervision.
- Contributed to business opportunities exceeding ₦20 million through technical input and client-facing proposals.

Site Supervisor — Lego Construction Company

Dec 2019 – Apr 2020

- Developed project plans, contract documents, site schedules and budgets for residential and commercial projects.
- Facilitated interdisciplinary coordination meetings between design and site teams, and supported client engagement.

Architecture & Planning Intern — Danzinger Nigeria Ltd

Aug 2017 – Dec 2017

- Assisted management of consulting activities exceeding ₦10 million; supported drafting, BIM updates and construction documentation.

Landscape Design & HSE Intern — Nature's Beauty Construction

Nov 2015 – Feb 2016

- Participated in on-site health & safety activities and risk assessments; performed material, equipment and cost estimation to support project planning.

TECHNICAL & SOFTWARE SKILLS

Autodesk Revit	Expert — BIM modelling, coordinated documentation and schedules for 30+ projects
Navisworks	Multi-discipline model coordination, clash detection and 4D construction sequencing
AutoCAD	Expert — site plans, shop drawings, fit-out layouts and construction detailing
MS Project	Construction programmes, milestone tracking and resource scheduling
MS Excel & Office	Budget tracking, BoQ management, procurement schedules and progress reporting
Dynamo / Twinmotion	Parametric automation; real-time visualisation and client walkthroughs

EDUCATION

MSc, Construction Engineering Management — University of East London

Sep 2024 – Present

BSc, Building Technology — Federal University of Technology, Akure

2014 – 2019
