

DRAFTSMAN · AUTOCAD & REVIT · LAGOS, NIGERIA

# Draw. Detail. Document. Deliver.

Accurate technical drawings, working drawings and construction documentation — from architectural and engineering specifications to buildable sheets on site.

- Full documentation packages — plans, sections, details, schedules
- Core AutoCAD · working Revit, Dynamo and Navisworks
- Detailing packages produced for residential and commercial buildings
- Site measurements and drawing verification across 20+ project sites

# The Draftsman Behind the Drawings

Vollmann Olamide Akarakiri is a detail-oriented draftsman and technical designer with over five years preparing technical drawings, working drawings and construction documentation for residential, commercial and mixed-use projects across Nigeria.

His drawings are grounded in site reality: he conducts measurements, verifies dimensions on site and coordinates with architects, structural engineers and contractors so that every sheet issued is accurate, compliant and buildable.

2014 – 2019

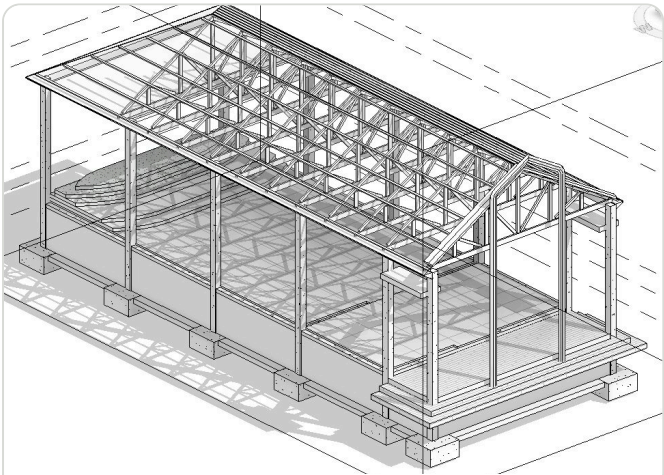

# Hall of Worship, Ado

Full construction documentation — dimensioned floor plan on a titled sheet, coordinated structural model and site layout.

Proposed Floor Plan — Dimensioned Documentation Sheet, 1:60

AUTOCAD · SHEET A106

Structural Frame — Hidden-Line Axonometric

REVIT

Site Layout — Massing & Landscape

SITE PLAN

# Hall of Worship, Ado

## MY CONTRIBUTION

---

Produced the dimensioned floor plan and site layout sheet, and coordinated the structural BIM model used to generate the hidden-line axonometric.

## PROJECT CONSTRAINTS

---

Producing a fully dimensioned, buildable documentation set from a client-supplied concept while preserving the existing facility's identity.

## PROJECT HIGHLIGHTS

---

A titled, dimensioned floor plan sheet (1:60) coordinated with a structural hidden-line axonometric and a full site layout drawing.

## PROJECT PROCESS

---

The church leadership provided an existing building concept to improve and modernise. The existing structure was studied to identify enhancement opportunities, then dimensioned documentation and a coordinated structural model were produced from that concept.

## SOLUTIONS

---

Coordinated the structural model against the floor plan and site layout so all three drawings agreed before issue, catching discrepancies before they reached site.

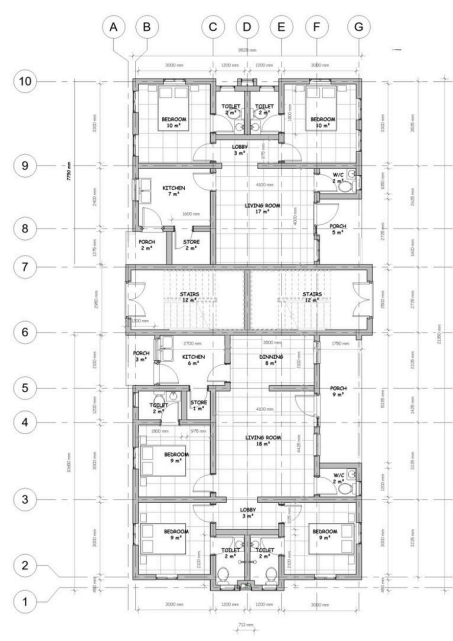

## ADDITIONAL NOTES

---

Full project write-up: `assets/Project Pictures/Ado Hall of Worship/README.md`.

# 6-Flat Block, Ikotun

Working-drawing set for a six-flat residential block — dimensioned floor plan, coordinated elevation and plumbing services schematic.

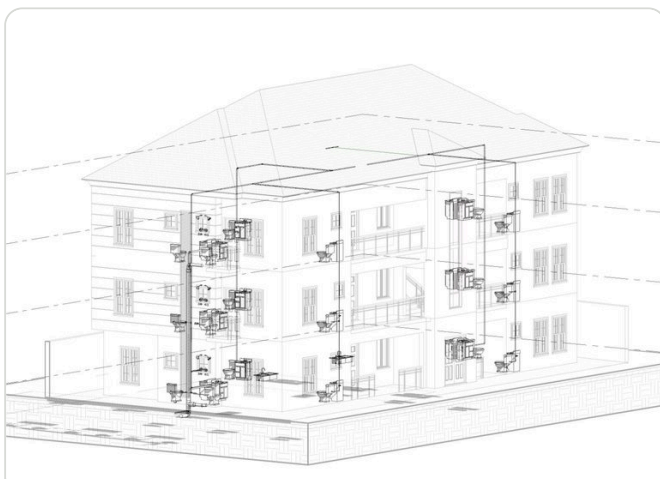

Typical Floor Plan — Dimensioned Working Drawing

AUTOCAD · PLAN

Front Elevation — Levels & Datums

ELEVATION

Plumbing Services Schematic

MEP

# 6-Flat Block, Ikotun

## MY CONTRIBUTION

---

[Add: specific role and responsibilities on this drawing set]

## PROJECT CONSTRAINTS

---

[Add: challenges specific to this project]

## PROJECT HIGHLIGHTS

---

A coordinated working-drawing set — floor plan, elevation and MEP/plumbing schematic — for a six-flat residential block, produced alongside its construction.

## PROJECT PROCESS

---

[Add: description of how this drawing set was produced and coordinated]

## SOLUTIONS

---

[Add: how those challenges were addressed]

## ADDITIONAL NOTES

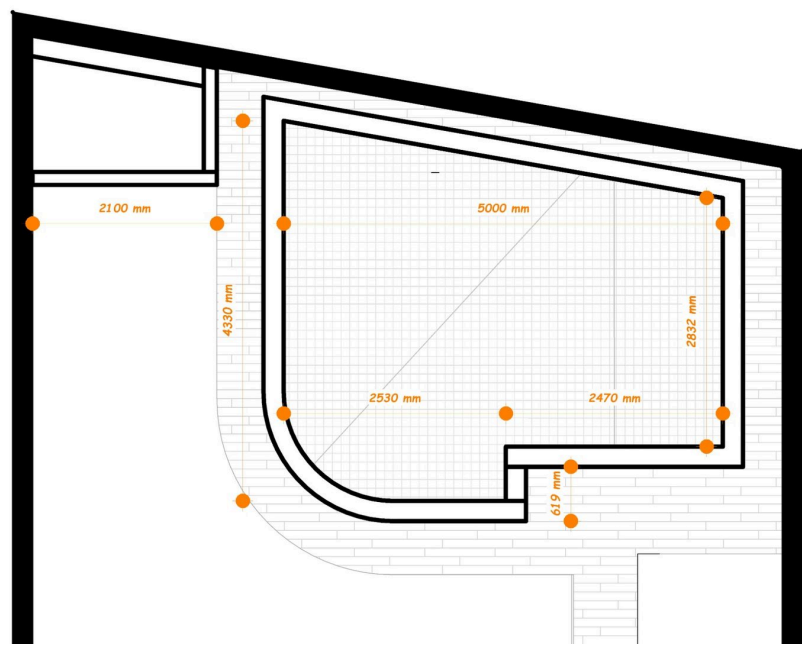

---

Full project write-up: [assets/Project Pictures/Ikotun Apartments/README.md](#). Also featured in the Construction portfolio.

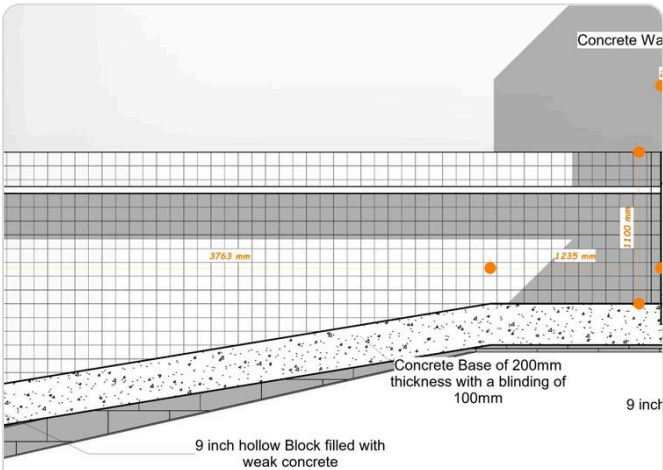

# FHS Hotel Pool, Ibafo

Pool structure documentation for FHS Hotel — dimensioned plan, wall-and-drainage section detail and coordinated isometrics.

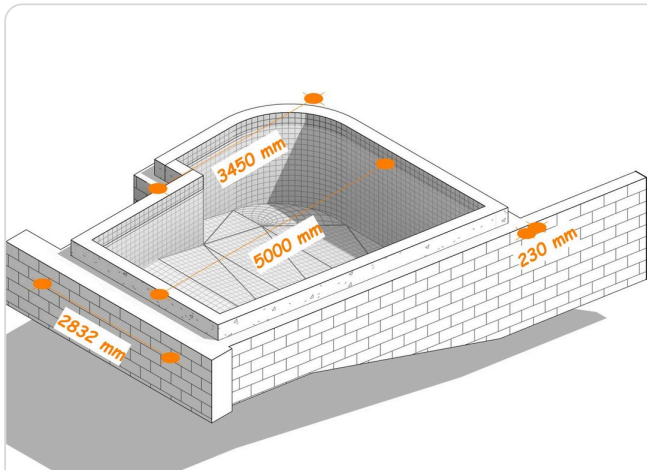

Pool Plan — Dimensioned Setting-Out Drawing

AUTOCAD · PLAN

Wall & Drainage Section Detail

SECTION

Structural Isometric — Dimensioned

ISOMETRIC

# FHS Hotel Pool, Ibafo

## MY CONTRIBUTION

---

Produced the pool's technical documentation — dimensioned plan, structural isometrics and the wall/drainage section detail.

## PROJECT CONSTRAINTS

---

[Add: challenges specific to this project — e.g. drainage/waterproofing detailing, curved pool geometry]

## PROJECT HIGHLIGHTS

---

A complete, dimensioned pool structural and drainage documentation package, coordinated across plan, section and isometric views.

## PROJECT PROCESS

---

[Add: description of the design/documentation process for this pool structure]

## SOLUTIONS

---

[Add: how those challenges were addressed]

## ADDITIONAL NOTES

---

Full project write-up: `assets/Project Pictures/FHS Hotel Pool Ibafo/README.md`.
