The Site Professional

Vollmann Olamide Akarakiri is a Construction Project Manager and Site Engineer with 5+ years delivering physical construction and fit-out projects across commercial, residential and infrastructure sectors in Nigeria.

His site experience spans retail fit-outs for international brands, banking outlet installations, residential buildings from foundation to finish, civil drainage infrastructure, and commercial office interiors — coordinating subcontractors, material procurement, quality control and programme management on each project.

Backed by advanced BIM capability (Revit, Navisworks, AutoCAD), he bridges the gap between digital model and physical delivery — ensuring site work is coordinated, clash-free and built to specification.

Site & Construction Software

Digital tools deployed from pre-construction coordination through to site delivery and project close-out.

Autodesk Revit

Expert — BIM Modelling & Coordination

Coordinated BIM models for commercial, residential and fit-out projects — family creation, documentation, schedules and clash-free model production for site delivery.

Navisworks

Proficient — Site Coordination

Multi-discipline clash detection and 4D sequencing before site commences — reducing on-site rework, delays and procurement errors across commercial fit-out and residential projects.

AutoCAD

Expert — Technical Drawing

Site plans, shop drawings, fit-out layouts, drainage details and construction documentation — issued to subcontractors and approved for construction.

Microsoft Project

Proficient — Programme Management

Construction programmes, milestone tracking and resource scheduling across concurrent commercial and residential site operations.

MS Excel & Office

Advanced — Cost Control

Budget tracking, BoQ management, procurement schedules and progress reporting for fit-out and construction projects.

Dynamo for Revit

Advanced — Automation

Parametric scripts to automate documentation and quantity extraction — reducing manual work on commercial and residential project delivery packages.

Professional Experience

5+ years on site — from intern to Engineering Lead, across commercial fit-outs, residential structures and infrastructure.

Aug 2021 – Feb 2026

Project Manager / Engineering Lead

Nu-Avenue Company Resources

- Directed site delivery across 20+ concurrent projects in multiple states — commercial fit-outs, residential builds and infrastructure.
- Generated ₦10M+ in savings through procurement oversight, cost control and error prevention.
- Coordinated architects, consultants, engineers, suppliers and subcontractors to ensure quality, safety and on-time completion.
- Produced BIM documentation for 30+ office, residential and interior projects.

Jun 2020 – Aug 2021

Site Engineer / Assistant Technical Designer

Nature's Beauty Construction

- Planned and supervised 110+ site-development and landscape projects across multiple Nigerian states.
- Produced detailing packages for 10+ residential properties.
- Trained 5+ site operatives; contributed to ₦20M+ business pipeline.

Dec 2019 – Apr 2020

Site Supervisor

Lego Construction Company

- Developed project plans, contract documents, site schedules and budgets for multiple residential and commercial projects.

Aug 2017 – Dec 2017

Architecture & Planning Intern

Danzinger Nigeria Ltd

- Assisted in drafting, BIM updates and construction documentation for consulting projects exceeding ₦10M.
